Computer Engineer and Full Stack Developer primarily focused on Front End, with experience in multiple languages and technologies, I have a C1 level in English which allows me to work in international environments.

As a developer, I enjoy tackling complex problems and finding creative solutions by following best practices. I'm a team player, always open to collaborating and sharing ideas to achieve the best possible result, I easily adapt to new technologies.

In my free time, you can find me working on new projects, reading up on the latest tech trends, or exploring the outdoors.
